PROSPECTUS 2018

## Shri Mata Vaishno Devi Temple, Kalaburagi

The iconic Shri Mata Vaishno Devi Temple at, Kalaburagi Karnataka, was established in March of 2016 by the Gabradi Religious Trust (Trust of Gabradi Group)

The Gabradi Group Trust comprises of members of the renowned Wakode family of Kalaburagi. The Wakode family has a long history of staunch devotees, who have grown stronger as time passes. With their family business of Astrology, they have always kept true to their roots, by imparting spiritual guidance through Astrology for decades.

The Shri Mata Vaishno Devi Temple, is a true artistic masterpiece, standing tall at 180 feet in height, spread over an area of 1.5 acres. Conceptualised and built by renowned architects, the entire outer portion of the temple is made up of artificial mountain rock and rubble.

The statue of Mata Vaishno Devi in the temple is made up of pure silver. On entering the temple, one would instantly experience an aura of peace and serenity. On the first level is the Charan Paduka Temple, followed by the Shri Ganesha Temple a little further. Next to this is the shrine of Lord Hanuman. Once you pass the shrine of Hanuman Ji, 50 feet above this floor is the dazzling sight of the mystical Ardhkuwari Gufa, which encloses the beautiful Mata Vaishno Devi Ardhkuwari Shrine. Moving further ahead, about 20 feet higher you finally reach the epitome of this enormous structure, the main 'Shri Vaishno Devi Temple'. The entire shrine bathes in the reflection of the Ma Vaishno Devi statue, which is made up of pure silver. Still further on, 30 feet higher is the Bhairav Mandir, at the peak of the rock structure, along with the Shri Gurudev Shrine, the Shri Balaji temple, the Purwaj Guruji Mandir and finally the journey is concluded and blessed with the Ma Kali Mandir.

The Gabradi Religious Trust spearheaded by Mr. Rajkumar Baburao Wakode, reaches out and aids the general public in many ways, such as serving food to the public on every Tuesday and Friday. The Trust also makes charitable donations for the people living below the poverty line. The Trust also organises medical camps for all. The Baburao Maruti Wakode International School, is situated right in front of the temple, hence receiving all blessings and positivity throughout the day.

## Messages from the Directors

We, the Board of Directors of BMWIS, have taken this initiative step to ensure that all the children of this city and the future generations to come, avail of quality education right here in their hometown, without the hassle of having to travel great distances to bigger cities to avail of the same.

Our focus is to develop our students as global citizens, with tolerance, respect and appreciation of diverse cultures and religions, which is an essential element for a life-long learning experience.

Proper Education is the pathway or passage to freedom from the shackles of ignorance. In today's dynamic and ever-evolving world, education is a bare necessity and the biggest asset one can have. They should be self-motivated, independent, confident decision makers to take up leadership roles in the future.

With open arms, we, at BMWIS, welcome one and all, and we reach out to those in search of true and undefiled Education. Our best wishes and blessings go out to the Principal, teachers and the students.

## Vision

Our vision is to bridge the pathway between quality education and remoteness, by establishing an International Education Institution, for all to have the opportunity to avail of proper education, in-turn strengthening the future of our nation.

## Mission

At BMWIS our mission is: -

- To empower rural students with quality education which will act as a convener and bridge the knowledge gap while pursuing higher education.
- To provide students with an integrated curriculum, for the over-all development of the body and the mind.
- To have a holistic approach to the values of humanity and the rich culture and heritage embedded in the curriculum.
- To prepare children to face all the future challenges in life, by providing them with the necessary skill set and positive attitude.

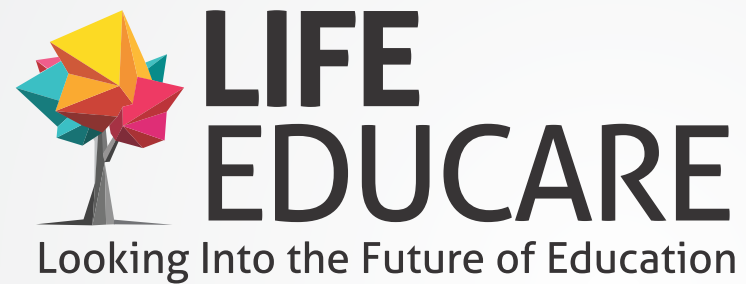

RAJKUMAR WAKODE (GABRADI), SECRETARY

## Our Education Partner

### If you are going to do something, do it right the first time.

LIFE Educare is one of India's leading consulting groups when it comes to projects, related to EDUCATION. The people behind LIFE Educare have worked across geographies bringing together a rich mix of experience and an in depth understanding of varied job functions and industries. ## Schooling Level

### Pre-primary Level

- During the Pre-Primary level, children experience different roles, responsibilities, and perspectives. Young children learn by observing and interacting with the older children. It allows for strong relationships to be built amongst teachers, parents, and children.
- The Sensorial area is unique to the Pre-primary environment. This area 'refines the senses' by allowing children to explore using their sense of touch, smell, taste, sight and hearing. This area also supports the development of key concepts such as shape recognition, discrimination of size (big/little), and colour recognition.
- Seeing the children work in their environment is priceless! The Pre-primary environment is alive with movement and filled with materials that are appealing and designed to meet the developmental needs of each child.

### Primary Level

- Children during Primary level (1st to 3rd grade) are actively social and begin to demonstrate an ability to think abstractly. Education at the lower elementary level, is designed to spark the imagination and to address the child's need to interact with others.
- Through observation, teachers outline individual plans for each child's developmental level. Children are encouraged to learn both in cooperation with each other and independently. A multi-age group, 6-9 years of age, provides a community of support. An elementary class, typically of 15 children, is child-directed with a certified teacher acting as a guide.
- The Primary Section is the second step into the knowledge base. All the basic concepts learnt here form the foundation of a student's knowledge. Therefore the syllabus is carefully planned to integrate the goal of learning and knowledge seeking.

## Faculty

- Excellent faculty, combined with outstanding ambition and the drive of the Head Teacher and senior leaders will bring about rapid improvement in all aspects of the school's work.
- Our curriculum offers something for everyone, we aim to give all our students the chance to shine.
- At our school we believe that happy learners are effective learners. We believe that our students are individuals and their needs differ. Teachers take great delight in passing on outstanding work so that it can be displayed on the school foyer.

## Facilities

- The school is an interesting blend of older, character buildings and modern, state of the art facilities.
- Located in our modern well-equipped building are the Design and Technology Faculty and Learning Resources Centre, stocked with an impressive range of reading materials, supported by computer facilities and will be an ever-popular place for students both in and out of lesson time.
- The school Arts building boasts of further computer suites, spacious art studios and a drama studio complete with stage lighting and sound equipment.
- The campus activities are monitored through CCTV cameras. The school is guarded round the clock by adequate number of security guards not only at the gate but also all across the campus.
- Arrangements for safeguarding the students are effective and well integrated into the work of the school.

### Library

- The school has a well-stocked library which will cater to the needs of the Junior, Middle and Senior students.
- The vast collection of books, journals, periodicals, magazines will be replenished from time to time thus making the place the most interesting destination for the students.
- The library books include some of the master pieces in English and local languages which will satisfy the appetite of readers of all age groups.

### Language Lab

- Communication is the key to success. It's not the only one, but it does play a crucial role in the success of any person.
- The accommodation of a separate language lab in our school is a step ahead in making our students more confident in their approach while conversing.
- We also have interactive boards that play a vital role. The spacious lab can accommodate up to 35 students in it at one time.

### Math Lab

- The school has set-up an ultra-modern air-conditioned Math lab which aims at enabling students to learn, reason, connect ideas and think logically.

### Music/Dance Rooms

- The Music room is equipped with a wide range of musical instruments for learning Eastern and Western Music providing children with a variety of learning experience in Music.
- Whether it's rock or classical, we offer the opportunity to learn to play a wide range of musical instruments and the chance to demonstrate those new skills in one of the shows which will be organised during the year.
- Children will explore their rhythmic talent while they learn various dance forms from both genres Eastern (classical) and Western.
- The students will be instructed and mentored by dance professionals.

### Computer Aided learning

- As we believe in the digital world, so we have a well-equipped computerized laboratory with 24-hour high speed internet connection. The State-of-the-Art Computer Lab with the latest configuration computers provide computing facilities and broadband Internet connectivity.
- All computers are fully loaded with the latest soft wares so that students can easily engage with technology and learn new techniques as well. It assists students in projects and research assignments.

### Digital Learning – AV Room/Smart Class

- The school provides Digital Learning Environment for students with Smart classrooms.
- The audio-visual room is fitted with state-of-the-art technology.
- We have a set of knowledgeable and helpful staff who help to address any issues regarding the working of any equipment and helps students to set up the learning sessions with the teachers. The room also has wireless and broadband internet convenience.

### Medical facilities/Infirmary

- Children will be children! Bruised knees and elbows, the occasional ill health on campus are all part of school life. We understand how important it is to have medical aid close on hand in an educational institution.
- We have a well-equipped infirmary where first aid is administered, and a nurse is on-call all through the day.

# Proposed Facilities in coming years

## Swimming pool

### More Than Mere Exercise

- We take great pride in our school infrastructure and our swimming pool will be designed to meet all health and safety guidelines.
- Qualified staff will maintain a high degree of cleanliness and proper water chemistry in our pool at all times. Students will always be under the watchful eyes of trained lifeguards and will be strongly discouraged from breaking pool rules to ensure the best swimming experience for everyone.

## Horse Riding

Students will learn horse riding at BMWIS and will be guided and monitored by qualified instructors. The course includes four riding sessions and four practical horse management lectures per week. The riding sessions will include:

- How to mount & dismount as well as basic controls of the horse
- The correct riding position in walk, trot and canter
- Introduction to riding
- ‘Have a go’ session in Vaulting (gymnastics on horseback) basics on the static barrels followed by work on the horses
- Introduction to jumping and course work for more experienced riders
- Having fun and direct contact around the animals and in nature!

## Rifle Shooting

In the coming years a Rifle shooting range will be set-up for students to learn long range Rifle shooting as an activity. Rifle Shooting is a collective group of competitive and recreational sporting activities involving proficiency tests of accuracy, precision and speed in using various types of ranged weapons, mainly referring to man-portable guns (airguns in forms such as handguns and rifles).

Different disciplines of shooting sports can be categorized by equipment, shooting distances, targets, time limits and degrees of athleticism involved. This activity will be closely monitored by trained professionals and the students will receive first hand instructions from them. The Rifle Shooting activity may involve both team and individual competitions, and team performances will usually be assessed by summing the scores of the individual team members.
